Web Engineering Lab

Lab Test 1 (SET A)

Name: **Marks: 20**

Roll: **Time: 1.30 hour**

FloodAid Bangladesh

You are tasked with designing a website for a relief program aimed at helping people severely affected by floods in Bangladesh. This initiative is managed by a voluntary organization named **FloodAid Bangladesh**. The website should present the mission, vision, and objectives of the organization, display a **volunteer list**, allow people to apply as volunteers, and facilitate **donations**.

Design a website with at least three pages (Home, Volunteers, and Donation) using **HTML, and CSS.** Each page should share a common header, navigation bar, and footer.
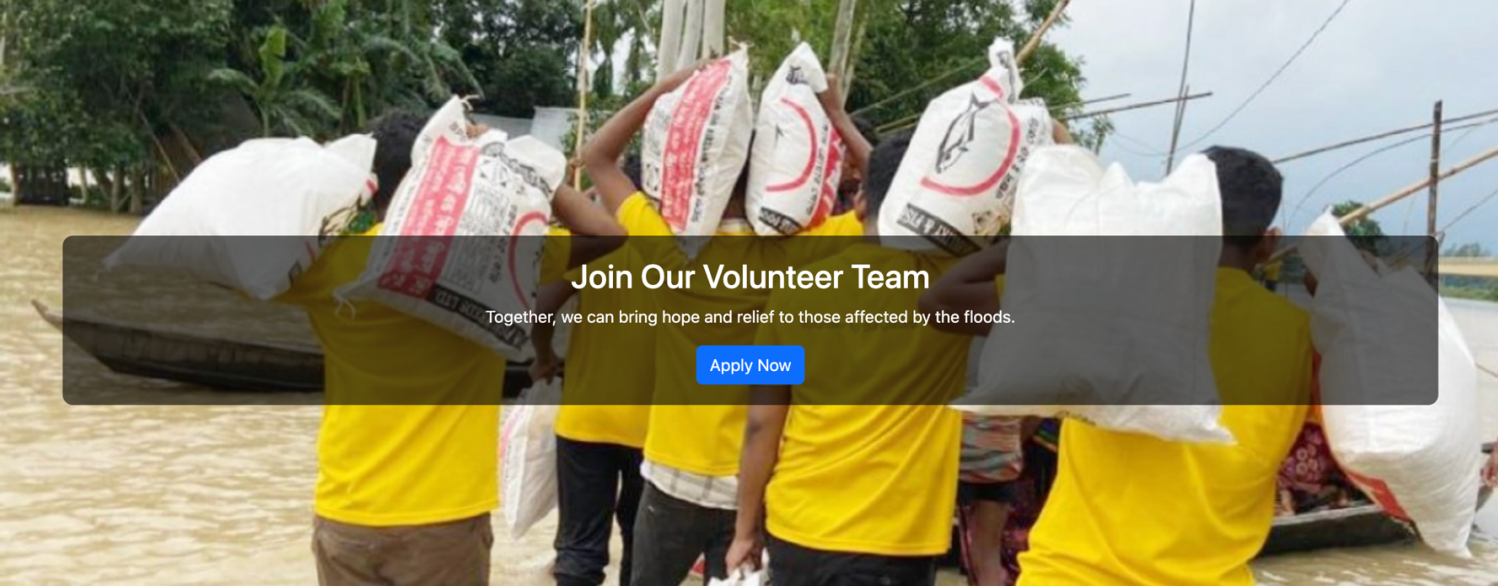

1. **Homepage:**

2. Volunteers Page:

Meet Our Volunteers

John Doe

John has been volunteering with FloodAid for 2 years, helping families rebuild their homes floods.

Contact: john@example.com

Jane Smith

Jane is a student who dedicates her free time to providing relief to flood-affected communities.

Contact: jane@example.com
